Utiltyx Welcomes Ashok Dash

New Vice President of Sales and Business Development

October 1, 2024 - Utiltyx is pleased to announce the appointment of Ashok Dash as Vice President of Sales and Business Development for Utiltyx India Private Limited (UIPL), the company's Indian subsidiary. This strategic hire reinforces Utiltyx's commitment to expanding its presence in the Indian market and enhancing its service offerings in the power utility sector.

A Veteran in Power Infrastructure and Data Practices

Ashok brings to Utiltyx a wealth of experience in the power utility industry, with a particular focus on data practices and automation in last-mile applications. His expertise in improving data integrity for AI and analytics applications in power infrastructure aligns perfectly with Utiltyx's mission to secure and optimize the growing nodes in the last mile of power infrastructure.

"We are thrilled to welcome Ashok to our team," said Konda Ankireddyapalli, Founder & CEO of Utiltyx, *"His extensive experience and innovative approach to power infrastructure management will be invaluable as we continue to expand our services in India and beyond."*

Ashok's Proven Track Record of Innovation and Leadership

- Conceptualization and Development of Health Assessment Practice for improved O&M predictability in power infrastructure, presented at the CIGRE India Conference
- Extensive experience in infrastructure projects integrating diverse technologies in power infrastructure and eGovernance
- Successful leadership roles in global organizations such as Fluke Corporation and WeP Peripherals Ltd.
- A strong history of building and leading teams to success in challenging market conditions

VISIBILITY. SECURITY. ANALYTICS.
